

# THE JCB JS200/210/220 | A GREAT VIEW, INSIDE AND OUT

# FAST FACTS

- All controls positioned within easy reach for effortless operation
- AMS monitor, seat and joysticks can easily be adjusted to suit any operator
- Usable storage space and added extras mean everything's on hand, throughout the day
- Enhanced heating and air conditioning put climate control at your fingertips
- Low-level engine cover and modern styling significantly improve visibility
- Both front screens slide easily over-head to avoid damage

# THE JCB JS200/210/220 | CONTROLLABLE POWER

# FAST FACTS

- Isuzu 102kW Stage II engine is more powerful, reliable and durable than ever
- Increased flow on hydraulic pumps makes the machine faster to operate
- More dipper force, drawbar pull and bucket dig force improve performance
- Boom/slew priority as standard speeds up truck loading
- Continuous, smooth operation while multi-functioning
- Joystick-mounted track gear selection makes changing speed easier

# THE JCB JS200/210/220 | RELIABLE & PROFITABLE

# FAST FACTS

- Modern design reduces risk of damage to superstructure
- 1000-hour greasing interval on boom-base and boom-to-dipper pins reduces service costs
- Cushion control ensures smooth operation, reducing wear and tear
- Isuzu engine and AMS move more material for less fuel
- Single oil filter cuts down on service time and cost
- Enhanced access throughout makes field maintenance much easier.

# THE JCB JS200/210/220 | DELIVERING OUR PROMISE
